- Fits all types of loaders
- Load capacity from 1,500 to 28,000 lbs.
- Available in 19 sizes
- Kit includes: 2 forks, 1 shaft, mounting brackets & hardware
- Extra mounting brackets available for using forks with other units

Arrow Bucket Forks will increase the versatility of your bucket loader or backhoe. They will help you move many types of loads: pipe, lumber, bricks, blocks, sheeting, roofing, tile and other palletized loads.

Arrow has supplied forks to the materials handling industry for over 40 years. Arrow is North America's largest stocking fork distributor, operating four locations for fast shipment and low freight.

All Arrow forks are inspected by magnetic particle, dye penetrant or ultrasonic testing. Stock fork orders are shipped the same day. Specialty forks are shipped in 10 days or less.

Top Mount Bucket Forks For All Loaders & Backhoes

Arrow forks are made of high strength, heat treated alloy steel. Most competitive bucket forks are mill rolled mild steel or fabricated channel steel.

**ATTACH IN
SECONDS**

Just roll the bucket down, drive in and pick up the forks. Rotate the bucket back until the back of the forks rest against the bucket. This procedure locks the forks in place on the brackets. Forks are free standing when they are removed from the bucket.

**MANY USES
MANY SIZES**

Increased versatility - move many types of loads: pipe, lumber, bricks, blocks, sheeting, insulation, roofing, tile and other palletized loads.
