

LONG REACH TREE SHEAR

now available through
Arrow Material Handling Products

The Long Reach Tree Shear connects to skid steers, loaders or tractors and offers a 7-foot extended reach. It's designed to shear trees up to 12-inches in diameter with its state-of-the-art blade that slices instead of cuts to reduce overall wear.

Long Reach Tree Shear

With serrated teeth on the edge, the Long Reach Tree Shear provides a strong, grapple-like ability that allows for the pick-up and removal of debris. Cutting and clearing with a single attachment saves time and labor.

SPECIFICATIONS

Model	Diameter	Weight	Extended Reach
XLR12UN	12"	785 lb	7'
