Arrow Material Handling Products

Excavator/Backhoe Mounted Tree Shear

The tree shears you've come to know and love from Sidney Attachments are now available through Arrow! Reach out to an Arrow representative today to order any Sidney tree shear attachment.

Skid Steer Mounted Tree Shear

FEATURES

- » Cut flush with ground in one cut
- » 110-degree hydraulic rotation to cut upwards and move felled trees
- » Major pivot points are machined and greasable for longer life
- » Serrated teeth on one edge provide a grapple-like ability to pick-up and remove debris
- » Made from 1-inch high tensile steel plate
- » Single blade design encourages trees to fall in direction of blade's travel
- » Narrow shear for tight spaces
- » Serrated jaw allows 100% of machine's power be applied to blade
- » Blade cylinder rated for 3,000 PSI operating pressure
- » Single 1 ¼ inch blade eliminates need for complicated adjustments and sharpening
- » Fastest cycle time available
- » Comes standard with universal quick attach coupler
