

FORK HANDLER

This heavy-duty attachment makes easy work of moving individual forks and multiple pairs of forks (can pick up all types of forks: ITA, Shaft-mount, Block, etc.) by either the clip of the fork or the blade, with no manual adjustment needed. The Fork Handler attachment can also be used to assist with mounting forks on forklift vehicles.

Part #	Weight	Length	Width	Height	Capacity
1004154-EHK	242 lbs	48"	24"	7"	2,000 lbs

Features and Benefits

- » Can handle single forks or multiple pairs
- » Can be used to securely mount forks to forklift
